Welcome To Our New Member Newsletter!

We're thrilled to welcome you to the very first issue of our new bimonthly newsletter! A space created to keep you inspired, informed, and connected.

Every two months, (*February, April, June, August, October, December*), we'll bring you stories that matter: updates from our team, promotional products, tips to help you navigate your financial journey with confidence, community spotlights, and a closer look at the products and services designed to support your goals. Our aim is simple, to provide meaningful insights while celebrating the people and initiatives that make our community stronger.

Whether you're skimming for quick tips or settling in for a deeper dive, we hope each edition brings value to your day. Thank you for joining us at the start of something new. We're excited to share this journey with you — one edition at a time.

Product Spotlight: **Tax-Free Savings Account (TFSA)**

A Tax-Free Savings Account (TFSA) is one of the most flexible and powerful ways to grow your savings. Any investment income you earn inside a TFSA—whether interest, dividends, or capital gains—is completely tax-free, even when you withdraw it. That means more of your money stays working for you.

You can contribute up to the annual limit set by the Government of Canada (with unused room carrying forward), and you can withdraw funds at any time without penalty. Even better: any amount you take out is added back to your contribution room the following year.

Whether you're saving for a major purchase, building an emergency fund, or investing for the future, a TFSA lets you grow your money on your own terms.

2026 Annual Limit - \$7,000

Phishing Scams

A phishing scam involves fraudsters who impersonate legitimate entities to trick victims into revealing personal or financial information. This is done through various methods,

such as emails, text messages, and social media to get victims to click malicious links or providing sensitive data.

Here are some common phishing tactics to be aware of:

- Impersonations. Scammers will pretend to be legitimate organizations like banks, government agencies (such as the Canada Revenue Agency), or businesses to gather personal information from victims.
- Malicious Links. These links will appear in an email, text, or message on social media that redirects the individual to fake websites that are designed to steal information.
- Attachments. This is another type that will appear in email or text messages that contain malware or viruses.

Protection Tips

- Be cautious of unexpected messages
- Don't click on links or open attachments from unknown sources
- Hover over links to verify them before clicking
- Look for spelling errors
